SUMMARY

Experienced Data Engineer specializing in Hadoop, Hive, PySpark, and Azure Databricks. Proficient in Python and SQL. Leveraging big data technologies to drive actionable insights and optimize data pipelines for enhanced business decision-making expertise in designing, developing, and maintaining robust data solutions.

WORKEXPERIENCE

Vodafone (_VOIS)- System Engineer

2019-Present

- Collaborated closely with data scientists, analyst to operationalize deeper insight in production pipelines. Communicated technical concepts effectively to stakeholders, ensuring alignment of data engineering efforts with business objectives.
- Worked on migrating the on-premise data pipeline into Azure Databricks and optimizing long-running pipelines in Databricks.
- Working as a Data Engineer for Adobe in their Corporate Marketing Insights team on developing and maintaining end-to-end optimized Data engineering pipelines handling terabytes of data using Pyspark, Spark, Hive, and Python.
- Used Azure Synapse Analytics to validate the data.
- Technologies: PySpark, Python, Hive, Spark, Unix, Azure Databricks, Azure DataFactory, Azure Synapse Analytics

Speed Bird Services –System Engineer (Domain Healthcare)

2015–2019

- Involved in Requirement Analysis, Design, and Development of Hive and Data Stage jobs.
- Contributed to developing HQL scripts that load daily incremental data from source tables/files to target tables.
- Cleansed and transformed data as per business logic.
- Worked on developing automation scripts to create interactive email reports and end-to-end balance control reports referred by the business using PySpark and Shell scripting.
- Refactored code to improve performance through hive optimization techniques.
- Technologies: Hive, Shell scripting, MySQL workbench, Pyspark

KEY EXPERTISE

Hadoop Ecosystem: Hive, Impala, Sqoop, PySpark || **Programming Languages:** Python, SQL, Shell Scripting || **ETL:** Databricks || **Cloud:** Microsoft Azure **Analytics tool:** PowerBI, Advance Excel

EDUCATION

B.Tech in Electronic and communication , Charusat
University|2015
