PROFILE

Data Analyst with hands-on experience in Python, SQL, Excel, Power BI, Tableau, and data analytics projects. Passionate about solving real-world business problems using data-driven insights. Experienced in exploratory data analysis, dashboard development, and business intelligence through virtual internships at Tata and Deloitte. Seeking to contribute analytical thinking and technical skills in Google's Data Analyst Apprenticeship Program.

SKILLS

Technical: Programming: SQL, Python, **Libraries** - NumPy, Pandas, Matplotlib, Seaborn

Analytics: Excel, Power BI, Tableau, Statistics, Data Cleaning, EDA, Data Visualization

Database: MySQL, **Tools:** Git, GitHub, Streamlit

INTERNSHIP EXPERIENCE

TATA GROUP GEN AI POWERED DATA ANALYTICS

April, 2026

Data Analyst Intern

- Performed exploratory data analysis using GenAI tools.
- Created business insights from structured datasets.
- Assisted in developing AI-driven business solutions.
- Built analytical reports to support strategic decisions.

Certificate = <https://www.linkedin.com/feed/update/urn:li:activity:7447587047873363968/>

DELOITTE AUSTRALIA

August, 2025

Data Analysis Intern

- Completed a Deloitte Australia Data Analytics job simulation focused on business data analysis and forensic technology.
- Cleaned, transformed, and analysed business datasets using Microsoft Excel to identify trends and improve data quality.
- Designed an interactive Tableau dashboard to visualize key performance indicators (KPIs) and business insights.
- Delivered data-driven recommendations by analysing patterns and presenting findings through effective visualizations.

Certificate = <https://www.linkedin.com/feed/update/urn:li:activity:7357050098553442307/>

PROJECT

1. AI Resume Screening & Job Match Analyzer

Tech Stack: Python | SQL (MySQL) | Pandas | NumPy | Scikit-learn | Streamlit | Power BI | Microsoft Excel | Git | GitHub

- Developed an AI-powered recruitment analytics platform using Python, SQL, Streamlit, and Power BI..
- Extracted candidate information and technical skills from PDF resumes.

- Compared resumes against job descriptions using skill matching.
- Generated candidate match scores and identified missing skills.
- Stored candidate data in SQL database.
- Built interactive recruiter dashboards in Power BI.

GitHub: (Repository Link)

Live Demo: (Deployment Link)

2. Power BI Business Intelligence Dashboard

- Built an end-to-end Business Intelligence solution using Power BI, Power Query, and DAX.
- Automated reporting processes and developed KPI dashboards to monitor business performance effectively.
- Performed data modelling and relationship management to ensure accurate and scalable analytics.
- Delivered interactive dashboards that improved insight generation and supported strategic decision-making.

EDUCATION

Medi-caps University

A.B. Road Pigdamber, Rau, Indore

Bachelor Of Computer Application + Master Of Computer Application (BCA + MCA (int)) 2021 – 2026

- Relevant coursework in [Relevant Subjects: Database Management System, Python Programming, Statistics Data Analytics, Business Intelligence, Data Structures]

Shree Guru Tegh Bahadur public higher secondary school

2021

Jawahar Marg, Shastri Nagar, Ratlam

12th | MPBSE | Specialization in Informatics Practices

CERTIFICATIONS

- Certified by the Solo Learn Platform for the '**Introduction to Python**' course
- Certified by Great Learning Platform for the '**Python Programming**' course
- Certified by Solo learn Platform for the '**Introduction to SQL**' course
- Certified by TCS ION Platform for the '**Communication Skills**' course

ACHIEVEMENTS

- Built and deployed end-to-end analytics applications using Python and Streamlit.
- Solved SQL and Python data analysis problems.
- Created business intelligence dashboards for real-world datasets.
